# NIAGARA ESCARPMENT'S URBAN PASSAGE

## Unique To The Heart Of Ontario

- Experience majestic panoramic views from scenic sections of a 750-kilometre ridge of fossil-filled rock. The Niagara Escarpment, a UNESCO World Biosphere Reserve, is nearly 450 million years in the making.
- Visit an array of beautiful waterfalls and cascades, situated in unique natural settings along the escarpment.
- Journey the must-see sights, access to Canada's longest footpath, the Bruce Trail, and a discover of historic roots of Hamilton. Flora and fauna abound, makes for a tranquil nature-filled journey along beautiful vistas and Carolinian forests.
- Escape to the city's oasis that leads you along the escarpment's vertical wall of limestone, sandstone and shale stands 100-metres tall. Hike the Chedoke Radial Trail and Bruce Trail, through the centre of Hamilton.
- See the must-visit Albion Falls and discover the former site of Albion Mills, a saw and grist mill, and the Village of Mount Albion.
- Explore Felker's Falls, and like many old escarpment river channels, has an upper and lower gorge. The upper gorge eroded to rapids while the lower gorge developed a waterfall due to its composition of a layer of hard limestone over softer rock.
- Visit Conservation Hamilton's Eramosa Karst. Learn just why experts have designated this karst to have the largest number of unique karst features in any single area in the province.
- Make a plan to stay, there's plenty to see and do in Downtown Hamilton and Upper Hamilton.

## WATERFALL CHARACTERISTICS LEGEND

**RIBBON:** Greater height than its crest width, streams of flow form a thin ribbon.

**CASCADE:** The vertical drop is broken into a series of steps causing water to "cascade" down the incline.

**CLASSICAL:** The height and crest width are nearly equal.

**CURTAIN:** Opposite of the 'Ribbon' waterfall, the height is smaller than its crest width.

## WATERFALL ITINERARY

# TIPS & A HEADS UP

Welcome to Waterfall Hiking in The Heart of Ontario! This 2-Day experience features the iconic waterfall sites in the centre of Hamilton, Ontario.

Enjoy safely, while preserving our beautiful trails, natural areas, and the Niagara Escarpment's landscapes. The routes are designed to offer you insight to the history and footprints of the past.

**DAY ONE's** itinerary offers a round-trip journey, guiding you on the Niagara Escarpment's edge, through rustic groomed trails to Scenic Falls in the Iroquoia Heights Conservation Area. Just for fun, take the pedestrian bridge that leads you over Highway 403 and peers over the crest of the "mountain" and over to Ancaster. Hikers will trek along the towering escarpment rock walls of the city above, delivering you to a tranquil garden of trails and waterfalls. It's a loop experience, if you want to challenge the stairs back to the upper section of Hamilton. Before you venture up, be sure to visit Hamilton's diverse communities within the city. Foodies will love the selection of restaurants and cafes, in downtown districts, nearby the trails.

**DAY TWO** will take you on a waterfall exploration to must-see Albion Falls and Felker's Falls. Included, is a wonderful rushing waterfall discover to Upper Glendale Falls, which is uniquely found beside the old Mount Albion access. This is a wonderful day hiking among the buzz of community life, as these waterfall sites are perfectly tucked away in the middle of plenty of what Hamilton has to offer. To make it an easy day, plan to park nearby Albion Falls, and then at Felker's Falls CA. An optional experience to Conservation Hamilton's natural adventure, Eramosa Karst is a must, as it lends to the discover component of this itinerary.

**Note:** Trails are subject to change as alternate routes may be required. This could be due to maintenance, and other unforeseen circumstances. Bruce Trail Conservancy updates trails on a regular basis. Please check [www.brucetrail.org](http://www.brucetrail.org).

# WATERFALL AND TRAIL ETIQUETTE

We want you to enjoy your adventure!

## VIEW THE FALLS

- Check out the falls from a viewing platform, this is the best place to see the falls and enjoy the view!
- Stay away from the bottom of gorges, waterfalls or escarpment areas – there is a chance of falling rocks and you could slip and fall on wet or algae-covered rocks.
- Stay away from slopes and edges of the escarpment – ground can become unstable in these areas and pose a fall hazard.
- Whenever visiting water, always be mindful that some areas are prone to flash flooding – pay attention to weather conditions.
- Stay at least one body-length back from the edge of gorges, waterfalls and escarpment areas. This is especially important for children and pets.
- Some Waterfalls in Hamilton have polluted water, do not swim or wade in them.
- Stay away from dangerous areas to take a photo your life is more important than a selfie or landscape shot.

## TRAIL SAFETY

- Stick to the marked trails to access the waterfalls, creating your own trail is dangerous and is considered trespassing.
- Respect posted signage, stay on trails and do not climb or bypass fencing.
- Ensure you wear appropriate footwear and only visit the falls during the daylight hours.
- Do not consume alcohol or take medication that may affect your balance while walking near the falls.
- Enjoy the plants and wildlife near the waterfalls, do not litter or trample the delicate plants. Parents/Guardians keep a very close watch on children and take the time to discuss safety concerns before and during your visit.

## BE PREPARED

- Leave no trace – leave what you find and take out what you bring. If you are packing food to enjoy on your hike, please be sure to pack it up and take the garbage with you.
- Weather, terrain, and various trail conditions can be challenging. Be prepared by packing drinking water, bug spray, sunscreen, light jacket, and even a first-aid kit. Minimize any risk by simply planning ahead.
- Bring change for parking meters, where applicable.

# DAY ONE

## IROQUOIA HEIGHTS CONSERVATION AREA, CHEDOKE RADIAL TRAIL, BRUCE TRAIL

**DISTANCE:**

**12 km**

**TIME REQUIRED:**

**4.5 hours**

**DIFFICULTY:**

**Moderate to Avid**

**SEASONS:**

**Spring, Summer, Fall**

### SCENIC DRIVE TO SCENIC FALLS

**Iroquoia Heights Conservation Area Trailhead Coordinates: 43.245416, -79.931763**

**Distance/Timing: 350 m / 5 - 10 min.**

**Terrain: Packed Earth, Groomed Trail**

The trailhead to the Scenic Iroquoia Heights Trail links from the Chedoke Radial Trail parking lot, or if you have parked across the street, at the off-road lot, just cross the road, to access the trailhead, walk toward the escarpment and you will see the trailhead in view.

Hike the trail veering left, opposite the Chedoke Radial Trail. There are two options, but take the Scenic Iroquoia Heights Trail (lower trail option), and it will weave along the escarpment's edge. It's a lovely hike, experiencing some panoramic views of Hamilton and discovering your bearings as you see the traffic up and down the "Mountain." It's an easy trail in a forested splendor set in an urban destination.

The trail will intersect with the Iroquoia Heights Side Trail/Bruce Trail. Follow the Bruce Trail, merging right until you come to the Scenic Falls, on your right hand side. Scenic Falls flows from the Chedoke Creek Tributary and is a dynamic 20-metre ribbon, terraced cascade waterfall, and set in Hamilton Conservation Authority's open space. This is the end of this portion trail, and to get to the Chedoke Radial Trail, you will retrace back to the bridge.

## SCENIC FALLS TO PEDESTRIAN BRIDGE

**Scenic Waterfall Coordinates: 43.243972, -79.934657**  
**Distance/Timing: 2 km / 45 - 55 min.**  
**Terrain: Packed Earth, Groomed Trail**

From Scenic Falls, continue along the Scenic Iroquoia Heights Walk/Bruce Trail. It winds and turns back through the conservation area, providing plenty of interest and views. There are spots that have an open-space or clearing, which is an interesting perspective to the preservation and wildlife of the conservation component. There are many side trails and if you happen to take one, you will eventually arrive to your destination.

Plan to stay on the trail which grips the escarpment, it will easily intersect with the Bruce Trail. To access the Pedestrian Bridge, the Scenic Iroquoia Heights Trail will link to the Bruce Trail, and lead you to the bridge.

## TAKE THE PEDESTRIAN BRIDGE OVER HIGHWAY ON-403

**Pedestrian Bridge Coordinates: 43.235536, 79.948261**  
**Distance/Timing: 240 m / 3 min.**  
**Terrain: Steel Bridge, Paved Pedestrian Road**

Just for fun, take a hike across the bridge. It towers over Hwy 403 and it worth the experience. The stairs on the opposite side of the bridge is approximately 38 metal steps. Once at the base of the stairs, hike the paved trail as it leads to Filman Road, Ancaster.

*As a point of reference, this location is nearby Mohawk Road/Rousseaux Road, which links to Downtown Ancaster. At the north end of Filman Road is the Bruce Trail, which leads you through forest lands and to Tiffany Falls, in Ancaster.*

## RETURN TO THE PEDESTRIAN BRIDGE TO PRINCESS FALLS

**Princess Falls Coordinates: 43.2458, -79.9299**

**Distance/Timing: 2 km / 25 – 35 min.**

**Terrain: Groomed Trail, Packed Earth, Steel Bridge**

Retrace your steps back to the Pedestrian Bridge, and cross over the highway, again. The bridge itself is actually part of the Iroquoia Heights Side Trail/Bruce Trail, so once over the bridge you will continue your hike along this straight trail. It's a nice flat path along a wooded environment, and a lovely nature's walk with bird watching opportunities. You will be reminded of Scenic Falls, as you pass by the site on your left hand side. Continue the hike until you reach the junction where you began.

To descend down the escarpment, stay left and follow the Chedoke Radial Trail/Bruce Trail, taking you along the sharp slope of the escarpment rock. It's a fascinating sight as you enter the surprise of the rushing water of Princess Falls. You literally walk between the water as the top of the falls is on the right of you. The waterfall continues its path underneath the trail and escapes on the left side of you. Princess Falls is a 7-metre complex ribbon waterfall tucked in the escarpment rock.

### Historical Notable

The Chedoke Radial Trail was originally built on the former trackway of the Brantford and Hamilton Electric Railway. With magnificent view of the city below, the repurposing of this land has certainly allowed the many local residents and visitors the experience to enjoy the Niagara Escarpment from a different and nature-friendly perspective.

## PRINCESS FALLS TO MOUNTVIEW WATERFALL

**Mountview Waterfall Coordinates: 43.2455, -79.9214**

**Distance/Timing: 1 km / 15 – 20 min.**

**Terrain: Packed Earth, Groomed Trail**

The trail takes you on a journey in forest splendor. It's a lush canopy trek tucked in the Niagara Escarpment 100-metres high. You will get lost in the thought that you are in the middle of the city, yet in an oasis of nature. Along the path you will come to Mountview Falls. This complex classical cascade waterfall is 10-metres in height. It flows from the Chedoke Creek Tributary and drains beyond highway 403's mountain route. On the trail, a metal bridge crosses over the creek, lending opportunity to linger for a chance to view.

## MOUNTVIEW WATERFALL TO WESTCLIFFE FALLS

**Westcliffe Falls Coordinates: 43.2454, -79.9085**

**Distance/Timing: 1.1 km / 15 – 20 min.**

**Terrain: Packed Earth, Groomed Trail**

This stretch of the trail will continue along the Chedoke Radial Trail. The relaxing hike leads you to Westcliffe Falls. The upper falls is a 15-metre complex cascade waterfall located nearby Chedoke Stairs. This area is a hub for walkers enjoying the Chedoke Stairs – 289 steps to the upper mountain. There is a bench at the base of the stairs and a great spot to experience the vibe of this part of the trail.

The Bruce Trail weaves just above the Chedoke Radial Trail. Watch for signs and diversify your hiking experience by taking the trail at various points along the route. You will find that the Bruce Trail will go into the forests of the escarpment wall and then bring you back down to the Chedoke Radial Trail. It changes up the route nicely, so plan to hike between both experiences.

## WESTCLIFFE FALLS TO DUNDURN STAIRS AND DUNDURN STREET SOUTH

**Dundurn Stairs Coordinates (Base): 43.246246, -79.894945**

**Distance/Timing: 1.1 km / 15 – 20 min.**

**Terrain: Packed Earth, Groomed Trail**

The hike continues along the forest of Chedoke Radial Trail. As you travel, realize the close proximity to the city and the amenities nearby. Arrive at Westcliffe Falls, a 15-metre complex ribbon cascade waterfall, similar to the other waterfalls on this path, flows from the Chedoke Creek Tributary. The trail arrives at Dundurn Street South.

Again, the trail intersects with the Bruce Trail. You have the option to hike the upper trail, which is the more rustic and groomed Bruce Trail, with its winding characteristics or stay on the Chedoke Radial Trail which provides a path experience.

## CHEDOKE RADIAL TRAIL AT DUNDURN STAIRS TO GARTH STREET (TOP OF THE STAIRS)

**Dundurn Stairs Coordinates (Top): 43.244858, -79.895572**

**Distance/Timing: 326 Steps / 10 – 15 min.**

**Terrain: Steel Steps**

To loop the hike, take the Dundurn Stairs – 326 steps to the top of the Niagara Escarpment. The stairs offer lookouts spots or rest spots at periodic locations along the way.

**Note: If you are hiking with a dog, please note that the steps have foot traction features with teeth. This can be tough on the pads of a dog's paws.**

## GARTH STREET TO IROQUOIA HEIGHTS CA PARK

**Cliffview Park Coordinates: 43.244132, -79.906848**

**Distance/Timing: 3.8 km / 50 – 75 min.**

**Terrain: Road Pavement, Groomed Pathway**

At the top of the stairs, walk along Garth Street (straight ahead). Head south on Garth until you reach Scenic Drive. Turn right on Scenic Drive and walk the street, around the curve of the road, following Scenic Drive to Upper Paradise Road. Turn right and take the pathway to Cliffview Park. At the end of this pathway is the top of the Dundurn Stairs and also a great view of the City of Hamilton and Lake Ontario. The path wraps around the escarpment edge for nearby Cliffview Falls which is situated below in the ravine. As you make your way around the path and the falls site, there is a lookout.

The escarpment pathway is a groomed level trail that parallels Scenic Drive. This section of the route offers the different perspective of the Niagara Escarpment and showcases the Upper and Lower sections of the city.

# GETTING HERE

## VEHICLE

### Highway ON-403 from Toronto

From Highway ON-403 West, take exit 64 for Lincoln M. Alexander Parkway East veering right from ON-403 (at the top of Hamilton's mountain). Continue onto Lincoln M. Alexander Parkway East, keeping in the right lane. Turn left onto Mohawk Road West. Look for Scenic Drive, after the bend in the road. Turn left onto Scenic Drive until you see a right turn curve. The parking lots are both at the curve, each on opposite sides of the road.

### Highway ON-403 from London

From Highway ON-403 East, take exit 64 for Lincoln M. Alexander Parkway East, exiting right. Continue onto Lincoln M. Alexander Parkway East, keeping immediately in the right two lanes to take the Golf Links Road/Mohawk Road exit. Turn left onto Mohawk Road West. Look for Scenic Drive, after the bend in the road. Turn left onto Scenic Drive until you see a right turn curve. The parking lots are both at the curve, each on opposite sides of the road.

### ON-QEW from Niagara

From Highway ON-QEW toward Toronto, use the right 2 lanes to take exit 88-89 for Red Hill Valley Parkway. Continue onto Red Hill Valley Parkway S. Continue onto Lincoln M. Alexander Parkway W. Use the right lane to take the Garth Street exit. Turn right onto Garth St (signs for Garth Street N). Turn left onto Denlow Ave. Continue onto Scenic Drive. Slight right to stay on Scenic Drive. The parking lots are both at the curve, each on opposite sides of the road.

## PUBLIC TRANSIT

### HSR Routes

#### Scenic Drive

**Bus Stop: #2857**

Goulding at Scenic

#### Base of Dundurn Stairs

**Bus Stop #2961, #2973**

Dundurn at Hillcrest)

#### Top of Dundurn Stairs

**Bus Stop #2833, #2846**

Garth at Auchmar

[www.hamilton.ca](http://www.hamilton.ca)

## PARKING

Park at Scenic Drive's Iroquoia Heights Conservation Area Parking Lot. It is a small lot, enough for approximately 10 cars. As an additional parking option, look for the parking lot across the road, just before the bend of Scenic Drive. It is a clearing of packed soil and available for cars to park for day's visit to the area.

### Scenic Drive, Hamilton

#### Iroquoia Heights Conservation Area

**Parking Lot, 10 parking spots**

Coordinates: 43.245529, -79.930735

#### Additional Roadside Lot,

5 or 6 spots on packed dirt (across the road from Iroquoia Heights CA Lot).

Coordinates: 43.244579, -79.931936

# DAY TWO

## KING FOREST PARK, RED HILL VALLEY, FELKER'S FALLS CONSERVATION AREA, ERAMOSA KARST CONSERVATION AREA

**DISTANCE:**  
12.7 km

**TIME REQUIRED:**  
5 hours

**DIFFICULTY:**  
Moderate

**SEASONS:**  
Spring, Summer, Fall

### ALBION FALLS AND KING'S FOREST PARK

King's Forest Park/Albion Falls Parking Lot Coordinates: 43.201900, -79.819641  
Albion Falls Coordinates: 43.1202, -79.4911

From the Albion Falls Parking Lot at King's Forest, Hamilton, Albion Falls, an impressive waterfall, is a complex classical cascade towering 19-metres high. It is one of Hamilton's most stunning waterfalls and hosts visitors from far and wide. Tumbling waters from Red Hill Creek, Albion Falls is a spectacle and a photographer's dream. There are lookouts for you to sit and enjoy the beautiful view and to reflex how the force of this waterfall provided power to what was once, Albion Mills. Visitors are advised stay on the trails and adhere to all signage.

Albion Falls was not only an obvious water source of its day, the rocks of the falls were actually used in the construction of Royal Botanical Gardens' beautiful Rock Garden.

### Historical Notable

Nearby, this site was home to a grist mill that dates back to 1792. In the lands that surrounds the creek, a saw mill was built to serve a small but growing community. Additional services included a general store, blacksmith shop, and three hotels. By the early 1900's the small village named Albion Mills had disappeared. Today, there is a commemorative plaque near the lookouts at King's Forest Park, and on display is one of the original mill stones.

## ALBION FALLS TO BUTTERMILK FALLS

**Buttermilk Falls Coordinates: 43.2053, -79.8196**  
**Distance/Timing: 1.7 km / 30 - 40 min. roundtrip**  
**Terrain: Groomed Trail, Packed Earth**

This hike takes you along the escarpment's edge, in a downstream direction and offering stunning views of the valley gorge and sounds of the Red Hill Creek below. As the trail mirrors the curve of the gorge, it leads you on a calming but forest discovery of native plant species, big-leaf maples that light up, especially in the peak of fall.

It's an easy hike and worth the trek to the ribbon terraced waterfall, 23-metre Buttermilk Falls. The tumbling waters are from the Red Hill Tributary. The name of the falls is one that some have debated. What makes sense is the historian's tale that the colour and odour of the water flowing over Buttermilk Falls was likened to that of buttermilk, as it is believed that the lands above the escarpment and adjacent to the creek were used for dairy cattle farming.

## FELKER'S FALLS TO UPPER GLENDALE FALLS

**Felker's Falls Coordinates: 43.2035, -79.7902**  
**Upper Glendale Falls Coordinates: 43.2023, -79.8097**  
**Distance/Timing: 4 km / 45 - 60 min. roundtrip**  
**Terrain: Packed Earth, Groomed Trail**

From King's Forest Park, a short drive (note the bus stop options) to make your way to Felker's Falls Conservation Area. Located on Ackland Street, Stoney Creek. From the parking lot, turn left onto Mountain Brow Blvd. The road turns into Mud Street, and at the three-way stop, turn right on to Pritchard Rd. At the traffic light, turn left onto Stone Church. Follow this road, as it changes to Paramount Drive. At the traffic intersection at Mud Street West, cross the intersection and travel to Ackland Street. It is a neighbourhood so slowly make your way as the street curves. At the peak of the curve, you will see Felker's Falls Conservation Area. Turn right into the parking lot. There are approximately 25 parking spots.

At the trailhead at the base of the parking lot, follow the path to the conservation area. There are interpretive signs that offer insight to the noteworthy features of the flora and fauna, as well as soil, geology, and maps to assist you to understand and navigate the area. The falls are just inside the trail, tucked behind the tall trees of the gorge. Felker's Falls is a 20-metre ribbon waterfall. The rock exposures located here have been identified as providing important geological information and of educational value. Discover the rock layers of this significant section of the Niagara Escarpment

From Felker's Falls, hike the groomed trail around the gorge, heading north until it rounds a bend on the Scenic Double Track Path. It leads to the Paramount Paved Path. To reach the Upper Glendale Falls, you will come across a packed earth path on your right (it's almost opposite the paved path on your left). Hike through a densely wood area for a few metres. On the left side of the trail is the waterfall.

Located on the Montgomery Creek as part of the Red Hill watershed and 3-metre in height, Upper Glendale Falls is a considerable terraced classic waterfall.

Retrace back to the parking lot. On the way back, stay on the direct path instead of the scenic path around the gorge, as an alternate experience.

*As a point of reference, hiker's should note that if you were to continue along the trail, beyond the interpretive signs, hiking east, you would cross a bridge. Immediately over the bridge, turn left onto the Bruce Trail. This section would descend down the escarpment, eventually linking you to Stoney Creek and the trails that lead to Lower Devil's Punch Bowl Falls. It is 2-hour journey, one way.*

## ERAMOSA KARST CONSERVATION AREA

(OPTIONAL EXPERIENCE)

**Eramosa Karst Conservation Area Coordinates: 43.1873, -79.8123**

**Distance / Timing: 7 km / 2 – 3 hours**

**Terrain: Packed Earth, Groomed Trail**

Park at the parking lot at Upper Mount Albion Road. It's an easy and convenient pay and display fee system. There are washroom facilities nearby the parking area.

The Eramosa Karst is filled with underground caves and streams, meadows, and forests. This unique natural gem was the watershed's first major conservation area to open in 20-years. There are more than 7 km of trails, that include boardwalks and bridges.

Karsts are geological formations including underground drainage, caves and passages caused by dissolving rock, found in limestone formations like the Niagara Escarpment. The Ministry of Natural Resources designated the Eramosa Karst lands as an Area of Natural and Scientific Interest in 2013, because it was believed to have the largest number of unique karst features in any single area in the province.

The Eramosa Karst contains examples of 16 different karst features, several of which are provincially significant. These include: soil pipes, sinkholes, sinking streams, dry valleys and a 335-metre-long cave (the tenth longest in all Ontario). Hamilton Conservation Authority

Explore the area, embarking on trails that intersect, intertwine and lead you to the 16 features that make this site so special.

# GETTING HERE

## VEHICLE

### ON-403/QEW from Toronto

Take exit 88-89 for Red Hill Valley Parkway southbound. Continue onto Red Hill Valley Parkway South. Exit right and take the Stone Church Road exit. Turn right onto Stone Church Road East. Turn left onto Pritchard Road. Drive over the overpass which comes to the three-way intersection at Mud Street/ Mountain Brow Blvd. Turn left onto Mountain Brow Blvd. Follow the curve in the road until you reach the King's Forest Park parking lot on your right.

### Highway ON-403 from London

From Highway ON-403, take exit 64 for Lincoln M. Alexander Parkway. Continue onto Lincoln M. Alexander Parkway, East. Take the Dartnall Road exit. At the traffic lights, turn left on to Stone Church Road East. At the next traffic intersection, turn left on Pritchard Road. Drive over the overpass which comes to the three-way intersection at Mud Street/ Mountain Brow Blvd. Turn left onto Mountain Brow Blvd

### ON-QEW from Niagara

From Highway ON-QEW toward Toronto, use the right 2 lanes to take exit 88-89 for Red Hill Valley Parkway. Continue onto Red Hill Valley Parkway S. Use the right 2 lanes to take the Stone Church Road exit. Turn right onto Stone Church Road E. and turn right onto Pritchard Rod. Pritchard Rd turns lefts and become Mud St/ Regional Rd 411. Continue onto Mountain Brow Blvd. Albion Falls/ King's Forest Park parking lot on your right.

## ACKNOWLEDGEMENTS

This Waterfall Itinerary was developed by Bev Scott, Tourism Product Development Specialist, Hamilton Halton Brant Regional Tourism Association (HHBRTA), in co-operation with some existing content that industry partners have developed and marketed for consumers.

Photographs used throughout this publication are both HHBRTA owned and courtesy of the attractions featured.
